ABOUT ME

- An insightful **Frontend Developer** with expertise in HTML, CSS, JavaScript, and modern frameworks such as React, Bootstrap and Firebase.
- Leveraging prior experience as a **Business Analyst** and **Project Manager**, I excel at bridging the gap between technical development and business strategy, aligning teams around high-level goals.

PROFESSIONAL EXPERIENCE

Codecool (Bootcamp education)

Junior Frontend Developer Course

AUG 2024 - FEB 2025

Learning in either Solo or in Teams, various real-world projects were completed in an Agile environment.

- Started with programming basics (HTML, JS, CSS)
- Continued with adding React/Bootstrap and creating weekly-projects
- Finished with adding back-end services, managing GitHub branches and integrating API's

Within the team, my role quickly became the organizer, ensuring that everyone was included and understood the knowledge involved.

Crisp, a Kroll business (Tech & Risk Intelligence, SaaS)

Associate Product Manager / Associate Business Analyst

NOV 2022 - FEB 2024

Crisp is a leading expert with real-time risk intelligence, protecting against mis- and disinformation.

My Role:

- Participating in all phases of the product development lifecycle, including analysis, design, testing, and integration of products, tracked either in JIRA or Productboard

LANGUAGES

Hungarian - Native language

English - C2, Fluent Mastery

Dutch - Basic, currently learning

EDUCATION

Bachelor's Degree from
Eszterházy Károly Catholic
University:

Major in English Studies

PERSONAL

Outside of work, I can usually be found at events for board games, organizing them or instructing newcomers to the hobby.

Alternatively, I have an interest in UX and system designs, while listening to various science podcasts.

Achievements:

- Championed the mapping out-of-date processes and their improvements
- Implemented automation for manual processes, freeing up Analysts time for important matters

Link Group (Financial Services, B2B)

Corporate Events Team Administrator

FEB 2021 - NOV 2022

Link Group manages financial ownership data, offering services as a Registrar for shareholder events, like Annual General Meetings.

My Role:

- Internal system setup that enables other teams
- Subject Matter Expert for troubleshooting issues

Achievements:

- Working with Process Improvement team as the primary tester and feedback for setups
- Self-taught to create Excel macros that improved the average processing time

Avis Car Rental (Travel and Tourism, SSC)

RPA Business Analyst - Continuous Improvement Team

JAN 2020 - JUN 2020

Avis-Budget Group is one of the big three car rental companies in the world.

My Role:

- Analyzing data and existing processes for improvements and requests
- Meeting the requirements gathering by consulting with multiple clients on key initiatives

Customer Service Specialist - Frequent Traveler Programme

FEB 2017 - JUN 2020

My Role:

- Subject Matter Expert on internal system setups
- Testing and troubleshooting for implementations

Achievements:

- Proposed and applied multiple automation (VBA) that were implemented to overall free 3 FTE's time in the team

Bravofly (Online Travel Agency, SSC)

Customer Service Agent - EMEA region

AUG 2015 - DEC 2016

- Handling incoming calls for English lines
- B2B contact for outbound calls as to various airlines
